

NEW!

CAT® GC MODELS

BACK-UP POWER GENERATORS

- + Multiple locations and experienced technicians to serve you
- + Customizable maintenance plans
- + Excellent transient response and steady state performance
- + Parts availability: 92% fill rate, 99% overnight
- + Low-noise sound attenuated enclosures
- + Simplistic operator interface/controls
- + Range of options and accessories for your application

CATERPILLAR QUALITY. PERFORMANCE YOU NEED.

When it comes to power, there is no such thing as a convenient outage. It is essential that you prepare for emergencies before choices are limited and loss is unavoidable. Ask yourself, when you are without power, how much do you risk losing per hour, per day, per week?

Caterpillar is here to provide you with the value and reliability that can only come from Cat® power systems. The new Cat GC diesel generator sets share the same quality and performance as our critical application product line but are value engineered to reduce installation costs, valuable footprint freight costs, and, of course, the cost of ownership.

Consult local dealer for additional product information.
