

# Service Information

Caterpillar Motoren GmbH & Co. KG product support information for medium-speed engines

Engine platform: all  
Engine section: Fuel

Engine type: all  
Validity: 2020

No. 0017com • Issue 1; March 02, 2020

Information for all engine owners / managers

Action: for your information

## CIMAC 2020 Lube Oil Questionnaire - Operation on 0.5% S Fuels

Caterpillar Motoren GmbH & Co. KG is member of the CIMAC working group Lubricants. This working group initiated a questionnaire regarding engine operation on 0.5% S fuels and ask for support.

This Service Information links to a questionnaire where we are seeking the marine industry's input to lubrication challenges for 2020 operation.

This includes both operation on 0.50% S fuel and high-S fuel with scrubber operation.

It also includes a section, where you can inform other challenges.

The questionnaire and the answers will guide our work for making the relevant lubrication guidelines for the marine industry.

The answers are fully anonymous, and it is not required that you answer all the questions to send the form.

If you have multiple challenges with different types of lube oil, please forward one separate form per lube oil.

### *Content of this Questionnaire:*

A: What type of organisation are you representing?

B: 2 Stroke: 0.5% S Fuel Operation

C: 2 Stroke: Scrubber Operation

D: 4 Stroke: 0.5% S Fuel Operation

E: 4 Stroke: Scrubber Operation

F: Additional Comments

CIMAC WG Lubricants invited you to fill out a form:
